Business Continuity Plan

Statement of intent

AST recognises that whilst the safety of pupils, staff members and visitors on the school premises is paramount, it is not always under our control.

In an emergency, staff members will endeavour to take all reasonable actions to ensure the safety of all those on site.

The procedures in this policy aim to minimise disruption to the learning environment whilst ensuring the safety of all pupils, staff members and visitors, by responding to critical incidents as quickly and efficiently as possible.

Definitions

An emergency is any event which causes, or has the potential to cause injury, loss of life, damage to property or significant business disruption.

A disaster is the escalation of an emergency to the point where normal conditions are not expected to be recovered for at least 24 hours.

Critical incidents include, but are not limited to, the following:

- The death of a pupil, staff member or governor

- A serious incident involving a pupil or staff member on, or off, the school premises

- An incident of serious violent crime

- A violent intrusion onto the premises, e.g. a bomb alert

- Extensive damage to school property

- A fire, flood or explosion

- The effects of disasters in the wider community

- Incidents whilst on educational visits

- Epidemics

- Exposure to hazardous substances near, or on, the school premises

- Loss or breach of ICT systems and/or data

Legal framework
